HOW BOMBERS WERE CAUGHT

Cheap Alarm Clock Clew to
McNamara Dynamiters

Taken on Eve of Five New
"Jobs" at Detroit

McManigal Confesses All to
Save His Own Neck

(Continued from First Page)

have often bewailed the economy in the matter of alarm clocks.

For the 85-cent clock intrusted with the job of setting off dynamite at the Zeehandelaar house had, by failing to function, left a completely equipped internal machine, unexpended, in the hands of the authorities. On the fifteen sticks of dynamite in this bomb were found labels which led the detective straight to the power works at Glant. Consequently they obtained full descriptions of the two men who bought the explosive and of the launch.

Partime (changed by the dynamiters to Peurries) used to transport it from Paito Alto to San Francisco. The Times explosion victims had been taken from the ruins the detectives had found the San Francisco lodging house where the pair had stayed and had learned their true names: Matthew A. Schmidt, 26, of the Captain Cook Lodge, alias James B. McNamara. They had found the "dynamite cache" of the conspirators in San Francisco, where was stored the balance of the 500 pounds of high-powered salutes bought at Glant. They had traced the movements of the two men to James and his description, alias James B. Rice, James Bryson and James L. Bryson, and strong evidence that he and Schmidt had planted the Los Angeles bombs. Chief Treadmore, whose association with the suspect had been traced to the suspect, had been questioned for an uncomfortable half-hour of questioning.

At the request of Earl Rogers, in charge of the investigation, the Los Angeles county grand jury met to return indictments.

ENTER W. J. BURNS

At this point William J. Burns enters the picture. It is Burns, one of the really great detectives of all time, that may get the credit for the final unraveling of the dynamite plot. Many other men patiently traced and isolated separate threads of the nationwide conspiracy; Burns gathered together and connected up all these threads and of the separate threads he wove a human net. Burns had been on the trail of the dynamiters for some time before the blowing-up of the Times Building, and was retained for the investigation by the McClinton-Marshall company, one of the largest operators of business concerns in the country, many of whose offices had been leveled in the two or three years preceding.

It was the national campaign of

the iron and steel workers' union against open-shop structural steel jobs which had led in 1906 to the organization of the National Erectors Association, comprising the principal engineering firms of the country, engaged in the building of bridges, steel-frame buildings and the like on an open-shop basis and with open-shop materials.

The iron and steel workers' international union immediately declared war on the National Erectors Association, and the following year, 1907, saw the first of a series of eighty-three separate dynamiting of open-shop structural steel jobs in every part of the country. In this three-year annals of destruction, theaters, viaducts, steel mills, power plants and almost every other variety of building in which structural steel is used were mowed down at will. The apparent helplessness of the National Erectors Association and its members to hold their own gave new courage to the dynamiters. Their "jobs" became continually bolder and more murderous. Finally they were sent to Los Angeles to destroy The Times, which was "interfering" with the iron and steel workers' strike which had been officially declared by the International Union of Bridge and Structural Ironworkers to be the closed shop's greatest enemy in America. That was the beginning of the end.

So much can be ascertained from the records and from the confessions of the destroyers themselves, the first dynamiting of an open-shop plant in the three-year campaign was that of the Detroit City Gear Company's building in 1907. Other important items in the annals of destruction were railroad bridges at Buffalo, Holyoke, Mass., Perth Amboy, N. J., Bradshaw, Md., Bay Chaser, N. Y., Atkin, Md., Somerville, N. J., Cincinnati, St. Louis and Clinton, Iowa. The theater, viaducts at Pittsburgh, Cleveland, Hoboken and Jersey City, car shops at Mt. Vernon, Ill., the Chelsea Pier in New York, bridge material at Kansas City, East Peoria, Ill., and other cities, a building in Kansas City, the State Historical Library, a hotel in Kansas City, and finally the Llewellyn Iron Works, also in this city.

LEWELLYN DYNAMITING

The last-named job, one of the last of importance before the long-gathering net finally closed, was staged Christmas night, 1910. As in the case of The Times, a huge clockwork bomb was placed under a viaduct of the main Llewellyn bridge and set to explode soon hours later, giving the dynamiters ample time to escape. The explosion destroyed the office and part of the foundry, but the fact that much of the building was made of wood presented the destruction from fire as the chief hazard, and the dynamiters had hoped. It is later developed that the Times auxiliary plant was the real object of this errand of destruction but it proved to be too well guarded and the Llewellyn plant was blown up instead.

The Llewellyn dynamiters, already pretty well known to the Burns men, supplied one of the last links in the chain of evidence necessary to arrest. On April 13, 1911, James B. McNamara and Captain Cook, alias James Burns, operatives in Detroit, in their suitcases were found materials for making six clockwork bombs, their revolvers and a "demountable rifle" fitted with a Maxim silencer for shooting at night watchmen. McNamara later confirmed that they had come to Detroit to "pull" five dynamiting jobs.

On April 23, John J. McNamara, secretary and executive of the International Union of Association, as it was then, of Bridge and Structural Ironworkers, was given a tour of the union's international headquarters in Indianapolis. In McNamara's private vault was found a large quantity of nitroglycerine and time-bomb apparatus, including fourteen of the 30-cent alarm clocks, and a number of other time-bomb materials for use in dynamiting.

Tomorrow's article will tell of the expansion of the dynamite plot, the McManigal and the Burns operatives in Detroit, in their suitcases were found materials for making six clockwork bombs, their revolvers and a "demountable rifle" fitted with a Maxim silencer for shooting at night watchmen. McNamara later confirmed that they had come to Detroit to "pull" five dynamiting jobs.

The thrill that was Monte Cristo's

That thrill is now offered you. "The World is Yours!"

In all its grandeur—its million and one dazzling wonders. From Pusan to Delhi, from Naples to Agra, from Bangkok to Kamakura—romance, legend, mystery and adventure.

A remarkable itinerary—ports never before visited by any world cruise—Amoy, Macao, Pusan, Surabaya. On the ship that has the cruising viewpoint built into her—that has the largest swimming pool—the largest sport arena in the field of cruising, 136 pleasure-packed days—the prestige and efficiency of two world-famed travel exponents with their 177 years of experience.

How McNamara's Parsimony in Alarm Clocks Betrayed the Dynamiters

The Vital Clew—the Unexploded Zeehandelaar Bomb (top)
The labels on the fifteen sticks of dynamite in this internal machine led the detectives to the factory where the explosive was bought and to the identity of the buyers. Next, below, are parts of the contents of J. B. McNamara's bags when he was arrested in Detroit. Note the automatic, the electric wire and the alarm clock mounted on boards with dry batteries—identical with the mechanism of the Zeehandelaar bomb. Below is part of the wreckage of the dynamited Llewellyn Iron Works.

M'DONALD ENDS HIS VISIT

British Premier Crosses Border Into Canada;
"Ideals Unite Us" Word to Americans

NIAGARA FALLS (N. Y.) Oct. 15. (F)—Farewell, America! Hall Canada" were the dual messages today of Ramsay MacDonald, Great Britain's Prime Minister, as he passed from the one country into the other.

There was little formality to the crossing of the international line, represented by a narrow painted white strip in the middle of the Falls View Bridge, which towers 100 feet above the Niagara River, visible below the falls.

Major Schwaeys of Niagara Falls, Ont., and members of the Ontario Provincial Commission gave the British statesman a simple welcome before escorting him to Queen Victoria Park, where luncheon was served before the MacDonald party boarded a special train on the Canadian National Railways for Toronto, Ottawa, Montreal and Quebec.

In a farewell message to the American people Mr. MacDonald said: "I am the first with the pride that while the Atlantic divides, the cause of peace unites us. He added that this was the message from the American people which he was taking back home.

TO CAREY ON

To the Canadian people he said he was looking forward to "a restful and a profitable time" in the conference on disarmament which Prime Minister Mackenzie King will carry forward the peace work begun at Washington in what he has described as the democratic frank talk with President Hoover.

His message to the American people, which he has been for two weeks following:

"I have spent twelve days among you. They have indeed gone with you and have been very crowded. From the moment when I must say good-bye, I have met with nothing but hearty demonstrations of friendship and with a hospitality both public and private which has appraised me overwhomingly.

MESSAGE ACCLAIMED

"It is impossible to mistake the meaning of your cordiality and I thank you for it. We have hailed the object of my visit and have cheered the message of good will which I brought you from His Majesty, the King, and all sections in Great Britain.

"Your President and I have been privileged to express together in a spirit of cordiality and mutual frankness the relations of our two countries and the promotion of world peace. I have particularly appreciated the warmth of the reception I had from both your Senate and House of Representatives.

INSPIRATION GAINED

"To you all I have tried to make plain how earnestly the British commonwealth shares your prayers that war shall cease and your response to make it a great inspiration.

"As I step across the border and leave you for the moment, I do so rich with the proof that while the Atlantic divides us, the cause of peace unites us. That is the message which I am taking with me when I am home with me."

Although he had made many visits to Niagara Falls, Mr. MacDonald never tires of viewing their splendor and he spent much of the day around the falls and along the Niagara Gorge.

IMMIGRATION OFFICERS moving along the United States side of the boundary, occasionally cast a glance through the windows of the general store to assure themselves of its vacancy.

TWO FATAL SCALDED

DES MOINES (Iowa) Oct. 15. (F)—Marie Grief, 50 years of age, of Grimes, and Mrs. John McKinney of Des Moines, were fatally scalded today when a valve blew out in a steam pipe at the cannery plant at Grimes.

UNIONS OUTLINE DRIVE IN SOUTH

Federation Pledges Funds in Organizing Plan

Textile Branch Makes Plea for Huge Campaign

Convention Prepares for MacDonald Visit

TO TORONTO (Oct. 15. (F)—Organized labor's forces and funds were pledged today to a campaign for unionizing the South, by unanimous action of the annual convention of the American Federation of Labor.

Delegates were moved to their decision by a series of appeals relating to the situation of textile mill workers particularly in Tennessee and North Carolina, but their action took broad scope, directing all crafts unions to center organizers in the South the coming year, and setting up a special fund to back the campaign.

MONDAY PLEDGED

Formerly, the resolution presented by the United Textile Workers and adopted, declared it impossible for "any single union to carry on the task" cited the "cold-blooded shooting down of our members by sheriffs and police." It was a challenge to the entire American labor movement, and asked the federation to set up a special committee of craft unions executives to formulate policy and finance a general organization campaign.

Andrew McDonald, president of the American Iron and Steel Workers, asserted that the federation had "a right to demand 'low wages in the South are being used to depress your wage scales in the North.' Joseph Burks, head of the paper workers, offered \$1000 in behalf of his organization, and William Cavanagh of the metal mechanics, \$1000, and that the federation pledge \$1,000,000 or 25 cents per member, as a beginning."

Dr. Tippy Tippy, representing the Federal Council of Churches, filed with the convention a statement of sympathy with the intended campaign in behalf of that body.

WILL HEAR PREMIER

The convention adopted without discussion a resolution confirming its stand in favor of complete organization of the automobile industry. The executive board was instructed to detail special organizers for the work if funds permitted.

SCIENTIFIC PREPARATIONS

Scientific preparations were made by the convention today for its reception tomorrow of Ramsay MacDonald, Labor Premier of Great Britain, who arrived in Toronto late tonight. President Green appointed a reception committee headed by John L. Lewis, president of the United Mine Workers of America, to escort the Premier before the gathering. Business will be laid aside for the morning.

TRAINMAN DIES IN WHIRLPOOL

CINCINNATI Oct. 15. (F)—John W. Harkness, trainman of the Ohio State Columbus, was killed when a train running from Cincinnati to Columbus was derailed near here today when the locomotive, a club car and two Pullmans were derailed when the train hit an open switch. No passengers were injured.

FLAMES ATTACK HOTEL

STOCKTON, Oct. 15. (F)—Occupants of the Mansfield Hotel were forced to flee scantly clad from rooms last night at midnight by a fire that for a time threatened to destroy three buildings.

QUIET WELCOME FOR MME. CURIE

Co-discoverer of Radium Lands in New York

She Will be Guest at Ford Dinner for Edison

Hoovers to Entertain Her Later at White House

NEW YORK, Oct. 15. (F)—Madame Curie, the little-old lady in black, came slowly down the gangplank from the liner *de France* this morning.

The babbling, chattering crowds on the pier silent as her frail figure moved across the deck above them.

"It's Madam Curie," the whisper went around.

Her steps carefully guided by Ambassador Dawes, who had arrived on the same steamer, and by Owen D. Young, his wife had come down to the pier to meet the famous scientist. With her, Miss Marie Skłodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She has come to honor her fellow scientist, Thomas A. Edison, and will attend a dinner to be given in celebration of the fiftieth anniversary of his invention of the incandescent light in Detroit on the 21st inst.

HEALTH ENFORCED

Only her courageous spirit made it very possible, her friends said. Madam Curie is no longer young, and in recent years she has been afflicted by anemia, brought on, it is said, by her constant handling of radium. Her physicians did not want her to attempt this voyage.

Andrew McDonald, president of the American Iron and Steel Workers, asserted that the federation had "a right to demand 'low wages in the South are being used to depress your wage scales in the North.' Joseph Burks, head of the paper workers, offered \$1000 in behalf of his organization, and William Cavanagh of the metal mechanics, \$1000, and that the federation pledge \$1,000,000 or 25 cents per member, as a beginning."

Dr. Tippy Tippy, representing the Federal Council of Churches, filed with the convention a statement of sympathy with the intended campaign in behalf of that body.

MME. CURIE WILL REST

Madame Curie will rest at the home of old friends in New York before proceeding to Detroit. After the Edison dinner, she will dedicate the afternoon to a lecture at the University of Michigan.

Her final public appearance in this country will be as guest of honor at a dinner of the New York Committee of the American Society for the Control of Cancer, on the 21st inst.

WILL HEAR PREMIER

She will be in the guest of President and Mrs. Hoover at the White House on the 22d and 23d inst. and will receive there a check for \$60,000 raised in this country for the purchase of a gram of radium which she will present to the Radium Institute at Warsaw, Poland, her native city.

Her final public appearance in this country will be as guest of honor at a dinner of the New York Committee of the American Society for the Control of Cancer, on the 21st inst.

FLAMES ATTACK HOTEL

STOCKTON, Oct. 15. (F)—Occupants of the Mansfield Hotel were forced to flee scantly clad from rooms last night at midnight by a fire that for a time threatened to destroy three buildings.

CREW OF BYRD ABOUT TO START

Trail South from Little
America Difficult

Dangerous Crevasse Region
Will be Avoided

Route Marked Last Fall and
Food Cached

(Continued from First Page)
where the dogs of the geological
party may help, there is a level
stretch over a terrace of ice to a
foot of another steep slope.

Once up that and the top of the
barrier is reached, with no more
hills until the mountains are
reached, although the surface rises
in gradual undulations from a
level of 250 feet above sea level,
as noted by Amundsen, just after
the edge of the barrier is passed, to
a height of 228 feet at Latitude 78
deg. 12 minutes. This is the high-
est point on the entire route to
the mountains, and at the last depot
at 80 deg. 30' not far from Mt. Ward,
the altitude is only 476 feet.
And for forty miles before reaching
that point the altitude of the barrier
is less than 100 feet above sea

level. So it can be seen that the eleva-
tion of 200 feet so much higher
is significant as indicating the
presence of land at that point.

The existence of land there is
further shown by the heavily cre-
vassed area just south of this ele-
vated point, where the barrier drops
from 900 feet down to 364 feet
above sea level in a few miles.
Just beyond the crevasses is the
place which will serve this year as
the first depot.

CREVASSES TO BE AVOIDED

This crevassed region will be
avoided as it was last year by go-
ing somewhat to the east of the
course and then turning back again.
Amundsen got into this place of in-
numerable crevasses, which he
called the "Trap," on his depot jour-
ney, and later on the polar journey
but got out of it by turning east.

"There was no need to look for
crevasses," he said in his book,
"there was literally nothing else to
be seen."

This place lies in a sort of hollow.
After going around the Trap
the first depot will be established
by adding dog food to the stores
already there and covering them
with snow to form a big mound
surrounded by a flag. The entire
route will be marked by these yellow
flags fastened to strips of bamboo
and stuck in the snow at half-
mile intervals, and at every noon-
day a signal will be given by a flag
on a tall pole.

The depots will be more elaborately
marked, however, so that in
storms or days of bad visibility on
the return journey it will be easier
to find them.

In addition to the snow mound
and the tall pole with flag, flags will be
placed at quarter-mile intervals
for a distance of five miles on each
side of the depots. There will be
twenty of these flags on each side,
and each one will be marked with
the letter "E" or "W" denoting east
or west and a number showing the
distance from the depot. So
that if a returning party loses the
trail and finds a flag marked "E"

OKLAHOMA STOCK TEAM WINS
ST. LOUIS, Oct. 15. (AP)—The
Oklahoma team today was declared
winner of the 4-H Club live-stock
judging contest at the national
dairy show here. The team scored
403 points to 387 by its nearest
competitor, Nebraska. Minnesota
was third, Arizona fourth and Illinois
fifth.

(Continued from First Page)
dissemination of Communist propa-
ganda.

GEN. FENG REPORTED BEING
HELD PRISONER IN QUARTERS

NANKING, Oct. 15. (AP)—Gen.
Chao Tai-wen, Nanking representa-
tive of Gov. Yen Hsi-shan of
Shansi, in a statement broadcast
today said the Government had made
a formal demand for the release of
General Chao. Yen said he was
in order to preserve peace.

Although Feng, sometimes known
as the Christian general, was the
guest of Yen, the latter sent
part of his bodyguard last night
to surround the residence of Feng
and confinement him to his quarters.

It is reported here today that
President Chiang Kai-shek, against
whom the present revolt has been
said to be personally directed, ex-
pected to go to Hankow soon to take
direct control of the opera-
tions against Kiangmin.

The other major difficulty of the
Nationalist government at the pres-
ent time, the dispute with Russia
in Manchuria had a more en-
couraging tone today. An official
team from Manchuria said negotia-
tions with Soviet representatives
had been resumed, and it was hoped
that the dispute will be satisfac-
torily settled.

Angeleno Freed
in Murder Trial

PHOENIX, Oct. 15. (AP)—Delib-
erating only thirty minutes, a jury
today acquitted Ballard Dey, for-
mer Los Angeles detective charged
with the murder of his business
partner, C. C. Rich, here, July 6,
last.

Dey pleaded self-defense, testi-
fying that Rich had threatened his
life several times over the dis-
tribution of profits of a watermelon
stand in which the two had been
interested.

FUNERAL RITES FOR
MRS. WALKER TODAY

HANFORD, Oct. 15.—Funeral
services will be conducted tomorrow
at the People's Chapel here for
Mrs. Melvin Walker, 41 years of
age, who died last night at a local
hospital. She was born in Hanford,
Calif., and had lived twenty-two years
in this community. She leaves her
husband, W. W. Walker, one son
and three daughters. Burial will be
in Hanford Cemetery.

Los Angeles Times has more home-delivered circulation than the Second Morning Paper and the Largest Afternoon Paper COMBINED

FASTEST-GROWING NEWSPAPER CIRCULATION IN LOS ANGELES

As shown by sworn statements made to the United States government by Los Angeles newspapers for the six months ending September 30, 1929, compared with the same period in 1928.

Los Angeles Times Gain 10,203

Next Paper (Afternoon) -- Gain 7,980
 Next Paper (Afternoon) -- Gain 6,731
 Next Paper (Morning) -- Gain 5,648
 Next Paper (Morning) -- Loss 4,417
 Next Paper (Afternoon) -- Loss 5,001

The United States government requires that sworn statements cover every publishing day, including Sunday.

When Sunday is eliminated, the Los Angeles Times still leads the field, week-day against week-day.

The Times gained 9,221 week-day circulation, practically all home-delivered circulation one copy to a family. The next largest week-day gain, made by an afternoon paper, amounted to 7,980, and consisted almost wholly of street sales.

Times Circulation Covers the Entire Los Angeles Trading Zone and is Concentrated Therein---1400 Display Advertisers Use It Exclusively

TWO APPOINTED TO STATE POSTS

*A. A. Rosenshine to Sit in
During Wood's Trip*

*Capt. Garland to Act in
Place of Athearn*

*Both Declared by Young to
be Experienced*

SACRAMENTO, Oct. 15. (P)—Albert A. Rosenshine, San Francisco attorney, and Capt. Arthur H. Garland, Los Angeles, were named by Gov. Young today as temporary appointees in the offices of State Superintendent of Banks and Corporation Commissioner, respectively, during the absence of Will G. Wood and Fred G. Athearn, heads of these State departments.

The Governor said that Athearn has important personal business engagements which cannot longer be delayed and for that reason had decided to be relieved from his duties as Corporation Commissioner until next January. His resignation was accepted, effective at 5 p.m. today. He informed the Governor he would be ready to resume office at conclusion of his absence.

WOOD TO TAKE TRIP
Wood announced his resignation last week, giving as the reason his desire to take in November a four months' visit to South America. In a letter to the Governor the Superintendent said: "I assure you I shall be ready to resume my duties on or before March 15, 1930."

A clause in the law permits State officials to absent themselves from their State duties and California for sixty days and the only way one may be gone for a longer period is the Governor explained, is to resign office.

Concerning his temporary appointment, the Governor said:

"Upon conference with each of the officials thus temporarily retiring, it was determined that the appointment of the ad interim successors should be made from the respective organizations; for it was obviously unwise to break in new material for these positions, even if any qualified outsider could have been found to take them for such brief periods. Fortunately the officers were both so well organized that a successor could easily be found to take over the duties of his chief without any loss of efficiency."

GARLAND EXPERIENCED

"In place of Mr. Wood I shall accordingly nominate Mr. Albert A. Rosenshine, attorney for the bank superintendent, who has been closely connected with him in the work of liquidating the affairs of the two banks which have suspended during the past two years—one in Yolo county and one in Los Angeles.

"The continuation of the liquidation procedure will constitute the most important duty of the superintendent during the next few months, while the regular work of bank examinations and the like will continue as formerly in the hands of Chief Deputy E. D. Holly.

He relieved Mr. Athearn during his absence. I have appointed Capt. Arthur H. Garland, who has been connected with the office of Corporation Commissioner five years and who is ideally fitted to take over the duties of commissioner during the next three months.

Mr. Athearn has recently completed reorganization plans for his Corporation Commissioner's office and has succeeded in reducing the average time for the granting of permits to a period of less than five days after first application. Capt. Garland has rendered notable assistance in perfecting this reorganization and the public is thus assured of no lessening of efficiency in the office."

Official Tells Railway Stand on Waterways

ST. LOUIS, Oct. 15. (P)—"Even-handed Justice" is sought by the railroads in the competition between the facilities of the rail carriers and inland waterway operation. R. H. Ashton, president of the American Railway Association, said in an address before the Associated Traffic Clubs of America, meeting here today.

He declared the railroads are not opposed to the development of inland waterway transportation if "economically justified," but they are opposed to the Federal government entering into competitive transportation operation with them.

Ashton named three things objected to by the railroads: first, the government entering into competition; second, where the competitor is relieved from important items of operation cost; and, finally, to the method of making rates by government barge line operation.

Blast Wrecks Burning Ship Tied to Docks

LIVERPOOL (Eng.), Oct. 15. (P)—The French steamer "Oklahoma," which put in here from South America with a load of nitrate, took fire and blazed furiously at her dock this forenoon, bringing fire apparatus from all parts of the city. After a tremendous explosion the vessel finally broke its back. Several steamers in the vicinity were endangered by the flames which at times reached 200 feet in height.

There was some damage to adjoining docks from explosions which occurred frequently. One dockworker was injured by flying timber.

FEDERAL AGENT GETS SENTENCE FOR KILLING

OPELKA (Ala.), Oct. 15. (P)—Grady Cobb of Athens, Ga., who as a Federal prohibition agent shot and killed Albert Edmunds in June, 1927, during a liquor raid at Phenix City, Ala., must serve twelve months at hard labor in the Russell County Jail. He was convicted yesterday by a jury.

Can These Great Men Be Mistaken?

From the MAGAZINE OF BUSINESS, in the December, 1928 number, we quote:

HENRY FORD on Aviation

"We have only scratched the surface of aviation and aeronautical invention," said Henry Ford, in an interview while visiting with Thomas Edison at Llewellyn Park.

"Undreamed of things will happen in the development of air travel in the future. All our present means of mastering the air will be combined. We have three ways of flight now: the helicopter, the plane and the dirigible. I think ultimately there will be a combination of the three to insure SAFE, FAST TRAVEL."

Quoting ARTHUR BRISBANE

in the Examiner of July 1, 1929, he says:

"Formation of gigantic airplane concerns, with capital running to hundreds of millions, promises well for aviation and the country. There is not enough in aviation to pay dividends on all that money unless something entirely new can be found... A handful of air passengers, and a few tons of mail will not pay dividends on hundreds of millions. But REAL AIRSHIPS, wiping out, once for all, long distance rail travel, would pay DIVIDENDS ON BILLIONS."

Again Quoting Mr. Brisbane:

"Henry Ford, Chas. E. Mitchell, and General Motors form the great air trinity...."

"Aircraft is still an imitation of the bird, and men do not succeed by imitation. ... There is unlimited opportunity for inventive genius in a field of new ideas. ... One good idea, NEW, may be worth to aviation more than all the factories and the billions of the big trinity...."

Quoting Wm. B. Stout

designer of the Ford air transports and president of the Stout Air Services, at a dinner of automotive engineers in Cleveland, during the National Air Races, he said:

"If there is one thing that we are altogether decided upon, it is that the present airplane is not going to be the future airplane... We must understand first that safety is the first fundamental. Safety in our present planes is largely dependent on power, but we must go further before we can satisfy the public that we are building something it wants to ride in."

Who Can Doubt the Wisdom and Vision of these Men?

TO WHAT, THEN, MUST WE TURN?

What Would You Give—

—TO SEE the prophecies of Henry Ford and Arthur Brisbane become realities?

—TO SEE airships that would do all and more, in the air, than automobiles do on land?

—TO KNOW that you can ride as safely any distance, at any speed, under any weather conditions, in the air as you can on sea or land?

—TO KNOW that not only hours, but days, can be cut off the time of passenger, mail, freight and other service, in transcontinental and transoceanic transport?

—TO KNOW that in a short time there will be safe, aerial transportation within the reach of everyone, and that take-offs and landings can be made on convenient roofs, if desired?

—TO KNOW that a round-the-world trip on one continuous flight will be made before long?

Are You One of the Thinking, Far-Seeing, Air-Minded People?

If so, will you kindly fill out and mail the coupon at right. Or if convenient, call at the office

MR. J. H. HUNT,
516 Merritt Bldg., Los Angeles, Calif.

Dear Sir: Without obligation to me will you kindly give me detailed information concerning the New Super-Airship.

Trenker Expedition Spends Exciting and Interesting Summer in Arctic

This Grim Reminder of a Tragedy of the Far North Was Stumbled Upon by the Luis Trenker expedition this summer. The master of the ill-fated vessel spent two years in the cabin, practically all that shows above the ice, before he was able to make his way out. In the meantime he had trapped a small fortune in fur. (P. & A. photo.)

When This Ice Floe Detached Itself from the main body a frantic effort was made by members of the Trenker expedition to anchor it. The effort failed and the floe drifted out to sea carrying valuable equipment, Trenker and a companion. (P. & A. photo.)

After Several Uncomfortable Hours Aboard the Floe a Rescue Was Made by boat from the Hobby, the expedition's motor schooner, without loss of a man. "We knew we were in no immediate danger," declared Luis Trenker, leader of the expedition (figure on left on floe,) "but it was a mighty comfortable feeling we had when the boat hove into sight." (P. & A. photo.)

The Long Skirt with uneven hem line is the Parisian conception for evening wear. A cluster of flowers matching material of gown adds touch. (P. & A. photo.)

One of the First War Pictures from Manchurian Front to Reach Los Angeles is presented here. A Chinese artilleryman is using the military telescope to direct the fire of a battery behind him while an infantryman in the trench looks on with interest. Unsettled conditions make the matter of getting photographs out difficult. (P. & A. photo.)

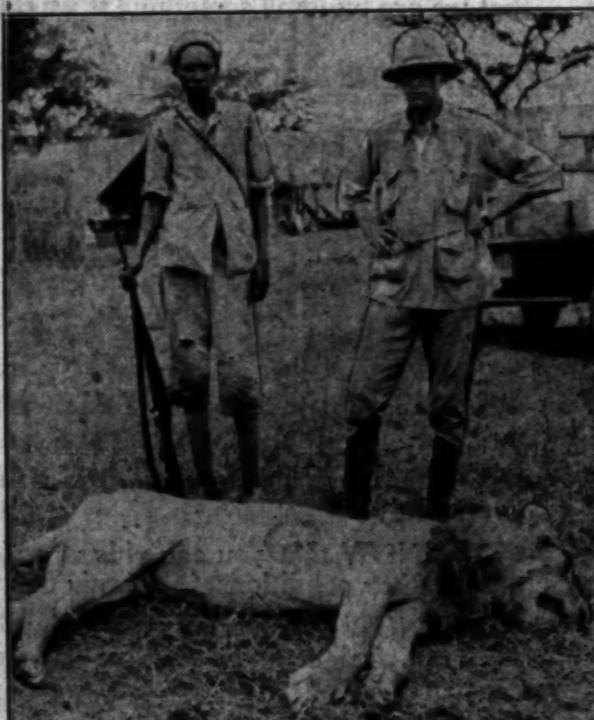

Your Old Motor Oil Will Be Valuable in the future, it is announced by the Bureau of Standards, a method for refining it at two-thirds the cost of new oil having been practically perfected by W. H. Herschel (above), one of bureau's chemists. (Herbert photo.)

She Denied Report
she is to marry Erick C. Clark, divorced husband of Muriel Vanderbilt, when she did a dramatic smile. (P. & A. photo.)

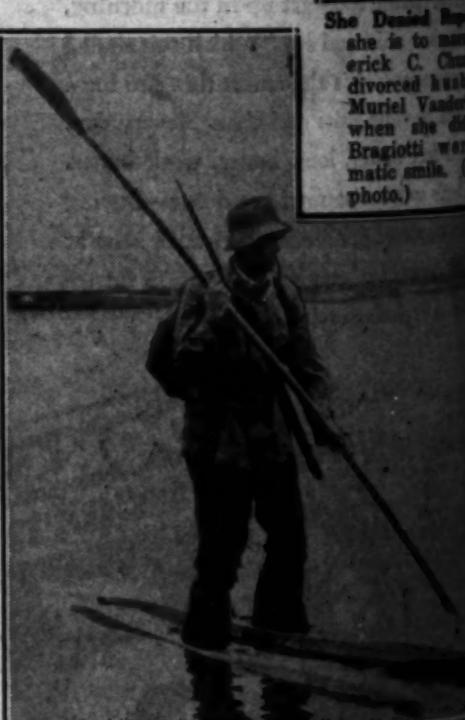

With a Toy Pistol and Chloroform pretty Joan La Coste, well-known woman auto racer, attempted to rob a guest in a Chicago hotel, according to police. Joan, who is held in bond of \$25,000, is shown here as she appeared in court to face charge. (P. & A. photo.)

Scarcity of Game in Upper Uganda, Africa, has made lions so bold that the M.G.M. unit filming "Trader Horn" in the district is forced to protect camp with charged wire fence. Photo shows Director Van Dyke with one of animals he shot at edge of camp.

Ordinarily a Tortoise Prefers Fish or sea growth of any kind as a diet, but Grandpa, the 304-year-old veteran at the Bronx Zoo, New York, will pass up any other variety of food for a banana. He evidently feels that "a banana a day keeps old age away." (P. & A. photo.)

Every Normal Male Has Had Dreams of some or other in his life of walking on water. Before, the above picture showing the first action being accomplished should be of interest to members of the downtrodden sex. The photo was taken in the Danube River. (P. & A. photo.)

HIGH LIGHTS OF HISTORY 1473

The Story of the World War
243—Foch's Counter-Attack, July 18, 1918.

by J. CARROLL MANSFIELD

MAP SHOWING THE SITUATION ON JULY 17, 1918.
While von Hindenburg was throwing his best divisions against Chalons and Epernay, Foch was preparing to make a great counter-attack on the thinly-held western flank of the Marne salient to recover the city of Soissons and force the enemy to withdraw from the Marne.

MAP SHOWING THE SITUATION ON JULY 18, 1918.
The counter-attack was to be launched along a 30-mile front running north from the village of Vaux to the Aisne. Three American divisions, the 1st and 2nd (both "regulars") and the 26th (National Guard) were assigned to posts of honor in the drive.

MAP SHOWING THE SITUATION ON JULY 18, 1918.
At daybreak on July 18, 1918, the French and American divisions rose from their trenches and, advancing behind a rolling barrage, hurled themselves against the enemy's lines. There had been no preparatory bombardment to warn the Germans.

MAP SHOWING THE SITUATION ON JULY 18, 1918.
Of the counter-attack, and its success was complete, the enemy lost 10,000 men, was quickly captured, and the "pouilles" smashed through to gain all along the front.

THE FORD TOWN SEDAN

VALUE far above the PRICE

IN REVIEWING the many advantages of the Ford car, it is particularly interesting to note the relation between value and price.

The low first cost is a point to keep in mind at all times because it means a considerable saving to you in the purchase of a car.

Of even greater importance, however, is the reason for this low price and the manner in which it has been achieved without sacrifice of quality or performance.

Every purchaser shares the benefits of the Ford policy of owning the source of many raw materials—of making thousands of cars a day—of selling at a small margin of profit—of constantly giving greater and greater value through the vast industrial organization that has been built up for the making of this car.

A new degree of excellence has been brought within reach of all the people through the development of new manufacturing machines

and the discovery and working out of new manufacturing methods.

Evidence of this is found in the extremely close limits of measurement maintained in the manufacture of vital parts. Some of these are held true to within a maximum variation of three ten-thousandths of an inch (.0003), reducing friction and wear and resulting in greater reliability, longer life and better performance.

As the quality of workmanship has been increased through the accuracy of the machine, so has the quality of materials been increased. The savings resulting from new manufacturing economies have been put back into the car. Through typical Ford methods, materials once thought too expensive for a low price car have been made available for use in the Ford.

Today, more than ever, it is an outstanding example of high quality at low cost. Were it made in any other way,

under any other policy, it would unquestionably cost you much more than the present price.

The use of the Triplex shatter-proof glass for the windshield is a definite indication of the quality that has been built into the Ford car. So are the four Houdaille hydraulic shock absorbers. The five steel-spoke wheels. The silent, fully enclosed six-brake system. The aluminum pistons. The chrome silicon alloy valves. The simplicity and efficiency of the lubrication, cooling, ignition and fuel systems. The large number of ball and roller bearings. The extensive use of fine steel forgings instead of castings or stampings. The many other mechanical features that count so much in reliability, economy and long life.

All of these are important considerations to every man and woman who is contemplating the purchase of a motor car. All are important reasons why the Ford delivers a value far above the price.

FORD MOTOR COMPANY
Detroit, Michigan

POWER MEETING POSTPONED DAY

Time Given for Dam Bidders to Get Together

Edison Company and City of Los Angeles Hang Back

Nevada's Demand for Third of Output Surprises

BY LAURENCE M. BENEDICT
"Times" Staff Correspondent

WASHINGTON, Oct. 15. (AP)—The second meeting between applicants for Boulder Dam power and Secretary of the Interior Wilbur was postponed today until tomorrow morning to give the representatives of the city of Los Angeles and the Southern California Edison Company, the principal bidders, more time to come to an agreement as to their respective shares and study the proposal that a single leasing corporation be set up to develop the government's power.

Up to a late hour tonight no conference between the city and power company had been held or arranged for, and it appeared each was waiting for the other to make an overture. Both want all the power from the dam, or as much as they can get, and immediately the arrangement of individual proportions would be revealed the minute they begin to exchange views.

NEVADA DEMANDS THIRD

To complicate matters further the state of Nevada this afternoon put in a demand for one-third of all the power to be generated, asserting that as one of the three States directly concerned in the Colorado River development it is entitled to a share of the benefits.

There were other evidences of vigorous disagreement over power allocations but in spite of them Dr. Elwood Mead, Commissioner of Reclamation and the right-hand man of Secretary Wilbur in the Boulder Dam situation, predicted that a compact agreement on allocations would be reached before the end of the week. If his expectation is realized the way will be paved for an appropriation by Congress next winter for the beginning of actual construction work early in the spring of 1935.

At tomorrow's conference spokesmen for the principal applicants for power will be asked by Secretary Wilbur to give their reaction to his proposals of yesterday in which he set forth that the price for power would be 1.63 mills per kilowatt hour, that the government would pay the dam and that municipalities and private companies taking the power would be expected to install the power-plant equipment and that it was desirable that the bidders get together and organize a "single unit organization" to represent all of them in a lease with the government.

GOVERNMENT'S VIEW

From the government viewpoint it should be a comparatively easy matter for the power applicants to agree on allocation. It was pointed out this afternoon by Dr. Mead that of the \$50,000 firm horsepower that the dam would supply, the dam and the government would pay the dam and that municipalities and private companies taking the power would be expected to install the power-plant equipment and that it was desirable that the bidders get together and organize a "single unit organization" to represent all of them in a lease with the government.

Commissioner Mead said the question of adding twenty-five feet to the height of the dam had come into the present negotiations for allocation of power, inasmuch as the department would have to get the approval of the Siebert commission of engineers which investigated Boulder Dam last year. Congress before it could decide definitely on the amortization terms should, in the opinion of Interior Department experts, be referred to the dam's allocators. Nevada and Arizona to take care of their rights under the Boulder Dam legislation.

Thus as Commissioner Mead sees it, there is only left some 70,000 horsepower to be allotted among the two states, the remaining 30,000 to be allotted to the dam's allocators.

DETROIT, Oct. 15. (AP)—Two workers employed at an excavation for a branch pumping station in Dearborn were killed by hydrogen gas today and two other workers who were there at the time are dying in a hospital. The dead are Tony Scarlini, 38 years of age, and Chipanelli, Francisco, 26.

DIVER CRAZED BY GIANT PEARL

Gem Worth \$250,000 Found in Persian Gulf and Luck Runs Finder Crazy

BOMBAY (India) Oct. 15. (AP)—Pearl divers in the Persian Gulf were reported here today to have found a pearl weighing fifty grains valued at \$25,000 (about \$25,000), a gem such as had been found only once before in the last hundred years. One of the divers receiving his share went mad, as he had never before seen so much money.

Its control to their mutual satisfaction.

However, the Edison company representatives look at the situation from an entirely different angle. They call attention mainly to the fact that this 300,000 of horsepower for pumping water to Los Angeles is only to be used for that purpose when needed, and that the power is turned over to the city for resale for its independent power needs.

This question will be at the forefront, it is indicated, when the conference with Secretary Wilbur is resumed.

WILLIAM B. MARTIN, JR.

WASHINGTON, Oct. 15. (AP)—The defense of Albert B. Fall to charges that he accepted a bribe of \$100,000 while he was in the Interior Commission, was commenced in the District of Columbia Supreme Court today after the government had introduced testimony showing that Harry F. Sinclair had turned over to Fall's cattle company a total of \$368,500, subsequent to receiving the Teapot Dome oil lease.

Fall is charged with accepting the bribe from Edward L. Doheny, monitor prior to awarding to the oil man's company the contract to construct oil storage tanks at Pearl Harbor, Hawaii, and a lease on the Elk Hills naval oil reserve in California. He will seek to prove through Doheny that the money was loaned.

Introduction of the Sinclair testimony was regarded as a blow to the defense. It was the first time a connected story of both leases has been placed before a jury and showed Fall's interests received a total of \$369,000 in 1921 and 1922 from Sinclair and Doheny. A jury which had only one vote for resumptions acquited Fall and Doheny of conspiracy, while another jury which heard only about the Sinclair case found Sinclair not guilty of conspiracy with Fall.

FALL LAUNCHES ON HIS DEFENSE

He Will Attempt to Evade Lease Responsibility

Government Shows Sinclair Gave Him \$268,500

Attorney Denounces Heflin for "Tissue of Lies"

WASHINGTON, Oct. 15. (AP)—The defense of Albert B. Fall to charges that he accepted a bribe of \$100,000 while he was in the Interior Commission, was commenced in the District of Columbia Supreme Court today after the government had introduced testimony showing that Harry F. Sinclair had turned over to Fall's cattle company a total of \$368,500, subsequent to receiving the Teapot Dome oil lease.

Fall is charged with accepting the bribe from Edward L. Doheny, monitor prior to awarding to the oil man's company the contract to construct oil storage tanks at Pearl Harbor, Hawaii, and a lease on the Elk Hills naval oil reserve in California. He will seek to prove through Doheny that the money was loaned.

Introduction of the Sinclair testimony was regarded as a blow to the defense. It was the first time a connected story of both leases has been placed before a jury and showed Fall's interests received a total of \$369,000 in 1921 and 1922 from Sinclair and Doheny. A jury which had only one vote for resumptions acquited Fall and Doheny of conspiracy, while another jury which heard only about the Sinclair case found Sinclair not guilty of conspiracy with Fall.

DEFENSE MOVE MADE

The defense today built the ground work of its effort to show Fall had little to do with the awarding of the Elk Hills lease and nothing to do with inserting the preferential clause in the Pearl Harbor contract, giving in the Pan-American Company preference to Fall.

BURGESS QUERIED

Delving into the activities of Burgess as a tariff adviser, the committee showed its intention to exert its power when it forced Burgess to hang himself.

Burgess said he represented the other clients in customs cases in New York, and therefore he concluded it was not the committee's business to inquire into his work for them at Washington. Upon insistence, he said he also represented the National Association of Wool Manufacturers, The National Electric Manufacturers' Association, a group of veterans manufacturers, a sporting goods association, the National Tile Manufacturers' Association, and the Toy Association of America.

Asked about his salaries with the first two, Burgess said he received a salary of a year from the wool association, \$1,000 a year, and from the electrical people and sportswear manufacturers, \$1,000 a year, and from the National Association of Wool Manufacturers.

Asked about his salaries with the first two, Burgess said he received a salary of a year from the wool association, \$1,000 a year, and from the electrical people and sportswear manufacturers, \$1,000 a year, and from the National Association of Wool Manufacturers.

Ring Your Own Cash Register!

Have you thought of going into business for yourself?

Have you grown tired of taking it easy and determined to get into something that will keep you busy and interested?

Have you decided to exchange your orange ranch for a store in the city?

Have you a boy growing up, whom you'd like to start in an establishment of his own?

Every day in the year, the Los Angeles Times prints columns of business opportunities. These should be checked over and carefully investigated.

Not every advertisement will prove to be exactly what you want, that would be too much to expect.

In buying a business as in buying a suit of clothes, the purchaser must be willing to put forth a little effort on his own part.

One thing is certain, the quickest and easiest way to find a business opening is to watch the columns where businesses are advertised and sold.

OLDER WORKERS STILL IN SADDLE

His Day in Industry Has Not Passed

Majority of Plants Set No Age Limit

Manufacturers Consider Human Problem

NEW YORK, Oct. 15. (Exclusive) The problem of the man who grows old in industry was taken up by the National Manufacturers' Association today.

Despite the common belief that employers are discriminating against older workers, figures were presented to indicate the contrary by the association's committee on employment relations, headed by Charles K. Seymour.

On the other hand, Roderic N. Oeleendam, director of industrial relations of the Metropolitan Life Insurance Company, said the industry eventually will have to pay more attention to human engineering as they have had to pay to mechanical engineering. He listed a score of jobs which industry can supply to older men and urged that the older worker be given consideration.

One person is hired every nine rejected according to Miss Helen Pond of the Scoville Manufacturing Company, Waterbury, Ct., who spoke on the work of that concern in hiring older men. The age limit set there is 45-30 years.

MAXIMUM AGE

The fact that the older worker's day in industry has not passed even though there is a widely held belief to that effect, was the assertion of Mr. Seymour.

An investigation of several hundred manufacturing houses showed that, according to our survey, that 72 per cent of the manufacturing plants of the nation have set no maximum age hiring limits.

The great majority state that they disregard age and hire only on the basis of physical fitness of the applicant and ability to perform work satisfactorily.

Twenty-eight per cent of the manufacturing plants have maximum hiring age limits, refusing to hire new employees beyond certain fixed ages, but many of these companies are in the case of former employees. Among this 28 per cent the limits range from 25 years to 70 years for unskilled and semi-skilled workers and from 35 to 70 years for skilled workers.

Other speakers were Noel Sargent, secretary of the Association of Manufacturers; William C. Grahame, vice-president of the Equitable Life Assurance Company, and F. Tecumseh Sherman, chairman of the Old Age Annuities Commission, National Civic Federation.

GROWING PAINS

The disturbances in the southern textile industry were called "the growing pains of rapidly developing industrial areas," in another part of the report by the employment relations committee.

Despite these outbreaks in the South, the report said, improved management-employee relationships are in evidence over most of the country.

Howell Cheney, of Cheney Brothers, textile mills, South Memphis, Gt. Sm., spoke on the relations of labor to public education, said: "Industry has approached public education in the past through the subject of taxation and child labor. These traditional methods of approach have rather closed their eyes to the needs of the public education problem."

"If industry is to render distinctive service in this field it must approach it not only from its own point of view, but from that of the people as a whole. It has a legitimate reason for entering this field, because industry exists to make maximum use of human services available to mankind, and it can't do so unless each individual is trained to give the maximum service of which he is capable."

A silver anniversary luncheon in honor of the members in the association two-and-a-half years ago was served at noon. Frederick Koster, president of the California Barrel Company and the first member to join from the Pacific Coast, presided.

The convention will close tomorrow night with a dinner and election of officers.

Woman and Man Found Shot to Death in Room

WALLINGFORD (Ct.) Oct. 15. (P) The bodies of Mrs. Anna Bryan Ayres, \$100,000-a-year advertising expert, and William Gaylord, were found today in a room at an inn. Both had been shot once through the temple.

Dr. John H. Buffum, medical examiner, expressed the opinion the man had slain the woman and then turned the gun on himself.

Mrs. Ayres was head of the advertising department of the Berger Brothers' cosmetics factory in New York. She had been divorced of a former Amherst professor, who left that institution five years ago with Prof. Alexander Melville John. She leaves three children. She was 41 years of age.

Gaylord's home was in Hartford. He was 46.

Scientist Dies in Washington

WASHINGTON, Oct. 15. (P) Dr. Edwin E. Slosson, 64 years of age, director of Science Service, died at his home here tonight of heart disease after an illness of a month.

TANKER THAT RAMMED SAN JUAN STARTS TRIP

SAN FRANCISCO, Oct. 15. (P) The tanker S. C. T. Dodd, which rammed and sank the coastwise liner San Juan August 29, last, with a loss of seventy lives, today resumed her voyage and sailed for Portland. The vessel had been repaired and all legal obstacles to the departure removed.

HOOVER IN STAND FOR RECREATION

Tells Louisville Session in Message Great Need for National Program

LOUISVILLE (Ky.) Oct. 15. (P) A national program of recreation is needed, in the opinion of President Hoover, who stated his view in a message read today at National Recreation Congress here.

"I am deeply interested in the problem of recreation," his message said, "as its solution goes to the root not only of many fundamental questions of physical health, but also of many problems of material stimulation and spiritual satisfaction."

A national program is needed and the conference at Louisville is of great service in its consideration."

Such that the individual can play, rather than merely compete as football and basketball, were favored in a talk by Helen Norman Smith, head of the physical education department, University of Cincinnati.

Graduates who have played only such games as basketball and football, and who have not been able to find sports for their adult life," she said. "Hence physical education programs teach such sports as tennis, golf, archery, horseback riding, deck tennis and fencing."

PHYSICIAN GIVES HAND TO SCIENCE

Dr. Mulvaney, Burned by X-Ray in Cancer Research, Watches Amputation

JERSEY CITY (N. J.) Oct. 15. (P) Watching a surgeon amputate his left hand at the wrist, a sacrifice in the cause of science, Dr. Edward Mulvaney today chatted cheerfully about plans for resuming his experiments with the X-ray.

During the past fifteen years seeking a cure for cancer, Dr. Mulvaney submitted once before to the knife of his friend, Dr. Earl J. Halligan.

Today, while Dr. Halligan proceeded with the operation at St. Francis Hospital, using only a local anesthetic, his patient jested with him.

Dr. Mulvaney said he plans to use an X-ray tomorrow.

"With the aid of a wood artificial one, by next week I'll be back at my experiments," he said.

Since the X-ray burned his hand fifteen years ago the physician has suffered pain. Nine years ago Dr. Halligan amputated a finger of the left hand in an effort to stop the spread of the infection.

Speed of Train Not Limited by Fog, Court Says

SACRAMENTO, Oct. 15. (Exclusive) The speed of passenger trains in California is limited by weather conditions, according to the opinion handed down today by the Third District Court of Appeal.

The ruling was made by the court in reversing a judgment of the Merced County Superior Court, which awarded \$16,715 to R. A. Hoffman, whose automobile was damaged by a Southern Pacific train during a dense fog.

"It would seem absurd and destructive to the usefulness of railroads as common carriers to hold that trains must pole along in an open unobstructed country through a fog or snowstorm at a rate of speed which would permit the stoppage of the train," the court said.

Officials of the school refused to discuss the reported decision.

Mrs. Barnes said she was happy at Gardner School until last week when the principal summoned her and informed her she was "shocked" by the knowledge of the world displayed in the young author's first novel.

Miss Barnes said she was happy at Gardner School until last week when the principal summoned her and informed her she was "shocked" by the knowledge of the world displayed in the young author's first novel.

MISS BARNES

The greatest single cargo ever taken at Los Angeles by a general cargo carrier, went out for North China yesterday in the American Hawaiian Line's G. & O. freight steamer

Miss Barnes said she was happy at Gardner School until last week when the principal summoned her and informed her she was "shocked" by the knowledge of the world displayed in the young author's first novel.

OTHER JOB WELL DONE

One year ago today the J. N. Walsh Organization, Inc., took over the management of the Merchants Exchange Building at 1000 S. Los Angeles Street. At that time, in that vicinity, 1,200,000 square feet of building space were vacant. Today vacancies still exist in this section. But the Merchants Exchange Building is 83.9 per cent satisfied with satisfactory and satisfied tenants, with prospects of a well-filled professional management.

It played an important part in bringing about this desirable result, has brought to the Merchants Exchange Building tenants manufacturing or representing lines that leaders on the Coast and in the nation. It has made the Merchants Exchange Building a recognized symbol of success.

Building owners present and prospective, interested in similar units, are invited to write or come for an interview.

NEW YORK BOND PRICES

NEW YORK, Oct. 16. (P) — A good record was made in the bond market today, as upward of \$100,000,000 in different issues was distributed among the various bond prices.

Times money again provided an important factor in the market, as the market's major maturities were quoted at the same rate as yesterday.

The rates were well supported, particularly at a point or two above yesterday's level.

Utilities were somewhat stationary, but stocks were under pressure.

The rail line showed gains of up to 3%.

Central Pacific Short Line at Chicago

Great Northern 4% Illinois Central

St. Louis Southwestern 4%

Great Northern 4% and the refunding

to all touched new 4% Illinois Central

Great Northern 4% was quoted at 100.

One of the features of the session was

the rise in the market for municipal issues.

The Treasury 4% and the 4% Liberty

Fourths 4% was shown a marked

improvement.

Industrial stocks, American Real

California St. International Metals

and the 4% of the Standard Oil

Company both were slightly higher.

One of the most active issues was the

New Haven 4%, which

rose 1 1/2%. The bond's net gain in today's

trading was 4 1/4 to 4 1/2 points.

How One Woman Lost
20 Pounds of It

The Weather
LOS ANGELES AND SOUTHERN
California, October 16, 1929. Minimum and maximum
temperatures for yesterday, maximum and minimum
for tomorrow, 10-12.

Lost Her Double Chin
Lost Her Prominent Nose
Lost Her Stomach
Gained Physical Vigor
Gained in Vivaciousness
Gained a Shapely Figure

If you're fat—first remove
cause.
KRUSCHEN SALTS
A mineral salts your body
and nerves must have
function properly.

When the vital organs of
perform their work correctly,
bowels and kidneys can't throw
that waste material—before
realize it—you're growing
fat!

Try one half teaspoonful
of KRUSCHEN SALTS in a glass of
water each morning—in 2 oz. of
on the scales and note how
many pounds of fat you have lost.
Notice also that you have gained
vigor, your skin is clearer and
your spirits are glorious because
you feel younger in body and
mind. KRUSCHEN will give you
surprise.

Get an 8 oz. bottle of KRUSCHEN
SALTS from any Owl Drug Store
leading druggist, where you will
find further notice after
the bottle doesn't contain you this
easier, safest and surest way to
fat—if you don't feel a
little tired—then you're
energetic—right—then you're
money gladly returned—Adams.

Schools (and Colleges)

The Times School and College Bureau will help you secure complete information about any kind of school or college you may be interested in. From which source suggestions may be made which will be helpful to you. THIS SERVICE IS FREE. Address, wire or call the TIMES, 622 So. Figueroa St., First Street Building, Los Angeles. First Street Building, Metropolitan 0700—or have your name and address with the TIMES' Branch Office and College Bureau, 621 South Spring street, and the desired school name will be mailed to you.

Simile for today: As clean as a college professor at a ball game.

"Al Capone doesn't look common to men in his shirt." "The sharp won't try to prove their service. Very few just service.

It only our place to say about it when war threatens.

What's the matter with aqua? Surveyors already on the canal, and Congress hasn't yet treated itself to junket.

Effect follows cause. The Federal Treasury has another tax cut; your municipal government has another bond issue.

Still, fifteen minutes each day with a dull book will be cultured as a similar period with a vibrator make you beautiful.

American: Having an individual standard of distinction in proportion to have more or less than neighbors.

Another great handicap to education is the fact that Lincoln didn't get high marks in school.

Chemists didn't split the hydrogen atom, after all, just separated different kinds something like the dissolution of Standard Oil.

If Christy Mathewson's son to make good as an aviator, name derived by father's poor control of the drop.

There is a destiny that shapes our ends, and the two or three will house one small atom.

These annual contests concerning the will to serve to keep the world round there is such a thing.

When a killer pleads insanity and gets away with it, you must remember that he was condemned to trial by a jury of his peers.

Vaults are three steel and concrete things in which banks keep money and securities that aren't being carried around by irresponsible boys.

There are many ways of saving money, but none of them are so popular as spending it.

Correct this sentence: "I know the love of men," said he, "it isn't because they never come."

MISS FULMER'S SCHOOL

RESIDENT & DAY SCHOOL

FOR KINDERGARTEN, PRIMARY, NINTH GRADE, HIGH SCHOOL, COLLEGE, AND POST-GRADUATE. Located in the heart of the city. For Girls, All Grades, High School, Kindergarten, 500 Laurel Ave., Hollywood. GR. 2979.

ELLIOTT SCHOOL for GIRLS

At Garfield Evening High School, 810 East Sixth Street, there is a class for adults in mathematics. The instruction is highly educated mathematics, it is hard to answer questions, but each student works at his own rate of speed.

Men in the engineering branches, in physics, chemistry or the mechanical trades, are studying algebra. Aircraft engineers work on geometry. In addition, mathematics, while surveying and the higher mathematics. Elementary arithmetic is also taught.

This class meets on Monday and Wednesday evenings from 9 p.m. There is no charge for instruction and the books are loaned free, only a deposit is required to cover the cost of the book. This deposit is returned in full as soon as the book is returned. Any person over 18 years of age is welcome. Those who have not had much schooling will find friendly help in studying beginning arithmetic.

The Caucasian race

Of Interest to Women

Society

by JUANA NEAL LEVY

In honor of Mrs. Henry Owen Eversole, who, with Dr. Eversole, is arriving this morning from Paris, the mother and sister, Mrs. Elsie G. Clark and Mrs. Wilfrid Shand, are entertaining Friday afternoon with a luncheon at the California Club.

Dr. and Mrs. Eversole are here for an extended visit. Their son, Henry O. Eversole, Jr., remains at school in the south of France, where his aunt, Miss Lucy Clark, still is staying to be near him, but their other son, Malcolm Eversole, is at the Webb School for Boys at Pomona. Dr. Eversole, for many years past, is on the Rockefeller Foundation in the French capital.

For Visitors

For Mrs. Evan Royal Mother (Leila Holterhoff) of Vienna, who with her mother, Mrs. Geoffrey Holterhoff, are in the home in West Adams, many lovely affairs are being given. Last evening Mr. and Mrs. Thomas Caldwell Ridgway gave a dinner at their home in South Rimpau avenue. This evening Mr. and Mrs. James Rainier Page are giving a dinner for their Wind-sor-avenue home.

Many other lovely affairs are being given in honor of the popular factor, who has a host of friends here in the Cityland, where she passed her girlhood.

Smart Affairs

Honoring Gen. and Mrs. Hunter Liggett of San Francisco, who were their house guests at the Biltmore for more than a week, Gen. and

EVERONE PERSPIRES Nobody is Immune

Offensive perspiration odor causes
embarrassment, menaces business
and social success, ruins romance.
Yet never announces itself to its
victims. How can you be sure?

This simple precaution: Put
Ever-dry under the arms with the
convenient sponge which is part of
the cork. Instantly it checks
under-arm perspiration and eliminates
the cause of offense. Only
Ever-dry has these four important
advantages:

1. Easier to apply, with
convenient sponge on cork.
2. Will not smart or irritate.
3. Dries quickly. Can be used
any time—day or night.
4. Pure and colorless. Will
not stain or hurt clothes.

Start using this better method today. 50¢ bottle at drug and
department stores. Remember
the name—Ever-dry. Because
Ever-dry is the perfected formula
of medical science, we guarantee
to refund the purchase price if
you do not find it more satisfactory
than any similar product!
Ever-dry Laboratories, Inc., 1008
West 6th St., Los Angeles.

EVER-DRY

Wonderful Skin Freshener

Just before retiring at night try the
new and pleasant way to remove the
make-up from your face. Get some Calen-
ton from your druggist. Get some Calen-
ton on a hot, wet cloth and rub on the
skin for a few seconds, then wash
off—no soap or water required. All the
make-up will be removed. Notice the wonderful
refreshed feeling your face has—notice
how clean and soft the skin is. The pores
have dissolved away and left the pores of
the skin pure and clean. Try this tonight
and you will see how good the fresh
feel of your skin will be. (Advertisement)

SHE AND MOTHER ON TRIP EAST Family Will Return in Own Airplane

Miss Juanita Wagner

CLUB NOTES

BY MYRA NYE

Mrs. Willoughby Rodman and Mrs. Hancock Banning will be the hosts for the monthly meeting of the Women's Democratic League at the Biltmore tomorrow at noon. Mrs. Thomas Jefferson Douglass, president, presides.

Mrs. Douglass has arranged for a

season series of lectures at the luncheon meetings, with the general theme, "The Science of Government," to be delivered by Prof. E. H. Carver, who occupies the chair of law at the University of Southern California. Prof. Carver

will be a guest tomorrow and will

outline the topics for the year.

C. A. Dykstra, professor of political science at University of California at Los Angeles, will speak on "Jefferson, a Modern Interpretation."

Among the honor guests seated at the speakers' table will be Mr. and Mrs. William G. McAdoo, Mr. and Mrs. Will Rogers, Mr. and Mrs. George M. Clegg, Mrs. Leo Greaves, Mrs. John C. Urewhart, Mrs. E. J. Westerhouse, Mrs. Henry Grady, Mr. and Mrs. John P. Carter, Mr. and Mrs. Matthew B. Jones, Mr. and Mrs. Edward Elliott, Miss Mary Foy, Miss Jeanne Jones, the latter of Hollywood. The members of the league will serve refreshments and will seat the several hundred who have made reservations.

Women of the Golden West

"Woman's Duty to Herself and to Our Country" will be the general theme of the October meeting of the California Women of the Golden West Friday at 2 p.m. in the Fiesta room of the Ambassador, Mrs. George Davidson Gilmore presiding.

Miss Edgar F. Martin and W.

H. Hessehoffer will be the chief

speakers, and Mrs. H. G. Radwin

will give a resume of current events.

A fashion show featuring the modern women ideas will be presented by the Blackstone Company and Miss Anna Bernick, chairman

of the Golden Light Committee.

Another form of scatica is caused

by the motion of the lower

vertebrates or sacro-iliac

bones of the pelvis. Such faulty

positions often cause a pressure on

branches of the sciatic nerve and

man of the National Friendship Committee announces that the tour east this month will be deferred until May, when it will be combined with the tour to Europe.

Business Women's City Club

"Education—Its Opportunities and

Advantages" will be the subject of

Hubert S. Upjohn, superintendent of Los Angeles county schools.

Speaking before the Business Women's Club meeting tomorrow at 8:30 South Flower street, to follow

the dinner hour, Bertha L. Aldrich is president of the organiza-

Church Ceremony

The marriage of Miss Katherine Loveland of Oberlin, O., daughter of Mr. and Mrs. Arthur Meyer and the Rev. Dr. La Follette C. F. Cates, son of Mr. and Mrs.

J. H. Hornbuckle of Copperport, Colo., was solemnized the 7th inst.

The ceremony took place in the Little Church of the Flowers, with Rev. Willis Martin officiating.

James Walker Hamilton presided at the organ and J. Arthur Myers was soloist.

The bride was charming in a gown of Chantilly lace and tulle over satin, with long tulle veil, and carried a bouquet of roses.

Mr. and Mrs. Loveland were honor guests at the north Saturday and during their visit here were honor guests at many lovely affairs, passing on day with their hosts at Catalina.

Going East

Representative and Mrs. W. E. Evans of Glendale are leaving Sunday night for Washington, D. C.

Their daughter, Miss Catherine Evans, who attends Holton Arms School in the national capital, will join them and they shortly will open the new home at Woodlawn on Glendale Boulevard.

Gen. and Mrs. Liggett left for the north Saturday and during their visit here were honor guests at many lovely affairs, passing on day with their hosts at Catalina.

Delightful Affairs

Many lovely affairs are given in honor of Mrs. Charles McCarthy and her

daughters, Misses Elizabeth and Marion McCarthy of Boise, Idaho,

who with Mr. McCarthy are coming to the city for their future homes.

They have taken up their abode in the last few days of their stay there.

Luncheons, teas and dinner parties

have been the order of the day and the last few days of their stay there.

There are house guests of Justice and Mrs. William Lee. They left on their way to the Southland.

Mr. McCarthy and his daughters

are among the popular prominent

residents of Boise, and the former's

husband, a former Chief Justice of

Idaho, has allied himself with a

firm of Miss Marion McCarthy,

the elder daughter, is planning

to enter University of California

for the next semester.

Mr. McCarthy formerly was

the president of the Fortnightly

Club, the oldest study club in

Boise, and also a prominent in

educational circles of the

City.

Announces Wedding

Announcement is made of the

marriage in Paris the 16th inst. of

Miss Jean Mac Janet to Emory

Foster. The latter formerly was

Health and Diet

ADVICE

by DR. FRANK MC COY

Author of "The Fast Way to Health"

PAIN IN THE LARGEST NERVE
The sciatic nerve which is the largest nerve going into the leg, is the largest nerve in the body. When pain occurs in this nerve it is usually called sciatica or sciatic rheumatism. This is really a form of neuralgia of the nerve. It may occur with those of a rheumatic tendency, those having pelvic tumors, or in one of either a nerve tumor, or a tumor of the spine.

The pain will continue until the proper treatment is given to adjust the bones to their normal positions.

One form of sciatica is caused from either tubercles or bone localized in the sacro-iliac or sacro-vertebral joints. Sometimes the hip joint may alone be affected with arthritis or tuberculosis and the inflammation from this one joint may affect the sciatic nerve in such a way as to cause sciatica.

A careful diagnosis is usually necessary in order to arrive at the correct conclusion concerning the exact cause of any specific case of sciatica. One of the simplest tests for the patient to use at home is to try a fast for about a week to see how much effect this will have. If there is not a decided change within the week the patient may assume that there is either an inflammatory condition of the pelvic bones—that these bones or those of the lower spine are out of position—or that there is some definite pelvic pressure, possibly caused from constipation or a tumor formation.

A careful diagnosis will always disclose the real cause or cause, and this, of course, suggests the proper procedure to follow in bringing about a cure.

Study of City Will be Made Before Buying Link

Wide Area Causes Problems in Transportation

Possibility of the merger of a number of taxi companies on the Pacific Coast, including one in Los Angeles, with the Parmales Transportation Co. of New York, was indicated yesterday by Ernest H. Miller, president of the New York corporation, who arrived here yesterday to make a survey of two other coast cities.

Ernest H. Miller said a number of inquiries of cities in which his corporation has no allied cab company with a view of possible purchase.

WILL STUDY FIELD

"First we will have to find out if the companies have any intention to us," Mr. Miller said. "and then we will make a very thorough survey of the territory covered." He said that although he has been in Los Angeles only a few hours, it is evident that the city has peculiar transportation problems due to the great distance between suburban centers.

"Only a well-organized and equipped taxi company can hope to serve adequately a community as large as Los Angeles is," Mr. Miller said. "The public today is demanding more rapid, convenient and prompt service; the old type of irresponsible taxi drivers in dilapidated vehicles is a thing of the past."

HAS MANY CARS

With the extension of the chain system to taxicab transportation Mr. Miller believes the business has a future in the utility class and that future in the region will have to recognize the public safety of this form of travel. He pointed out that Chicago with its great number of cars has almost total freedom from traffic tie-ups and even in the congested loop areas, cab service always is available.

The Parmales Transportation chain, which includes the Yellow Cab Company in Chicago, the Yellow Cab Corporation of New York, and similar companies in Cleveland and Pittsburgh, is said to operate a total of 15,000 vehicles. Mr. Miller said other companies to be joined with the chain will bring the total to 10,000 taxicabs with an operating personnel of nearly 30,000.

Maharajah to Arrive Tonight

Sir Jagatji, Maharajah of Kapurthala, India, will arrive here tonight accompanied by Sardar Imanji Dast, military secretary; Sardar Nuhabbin Ray, private secretary, and three servants. He is on a world tour that will take him to Hawaii, Japan, China, India, Ceylon, Malaya, States, Ceylon and Indo-China. Jagatji plans a twenty-four-hour stopover here.

Following his arrival on the Chief tonight at 7:15 p.m., the Maharajah, under motorcade escort, will be taken to the Roosevelt Hotel, where he will be the guest of honor of Louis R. Mayer and Sid Grauman. Later he will be the guest of honor at the premiere of "Hallelujah," which will open the new Fox Palace Theater tonight. A theater owner, another of the devotees where he will meet many motion-picture personalities, will terminate the evening's festivities.

A visit to the various film studios tomorrow and a tea at the Metro-Goldwyn-Mayer studio, prior to the departure for San Francisco, will complete his stay in Southern California.

ASSESSMENTS CONFIRMED

Council yesterday confirmed the assessments for the widening of Anaheim street from Frigate avenue to 1 street.

COLORADO GROUP TO MEET

The fall picnic of the Northwest Colorado Society of Los Angeles will be held at Point Fermin, San Pedro, Sunday, it was announced.

GOERTALYS REPORT

Gen. Goertals was employed by the county in 1924 to go over all the projects. In reference to the San Gabriel project he said: "The site, particularly the San Gabriel, should be gone over by a competent geologist to examine and report upon the structural formations, which will be required to be made to secure, in addition to that acquired by the drilling (diamond core) which is now in progress. Personally, I prefer explorations by tunnel, augmented by drill, after receiving a geologist's report on the site."

The grand jury also returned additional charges of bribery and extortion against another police officer already facing trial.

The total number of police officers now facing trial on similar grand jury indictments is increased to 12, with the naming of Bradford and the police officer for whom deputy sheriff are serving.

After adjournment yesterday, Percy Hammom, deputy District Attorney in charge of grand jury matters, stated that at least three other officers will be indicted by the grand jury when it resumes its inquiry into asserted bootleg graft next Friday.

MAIL RATES CUT

If the \$25,000,000 flood control bond is voted in 1934, \$25,000,000 of which was allotted to this project, many experts have been employed by the county to pass upon the San Gabriel dam in various aspects. Some elaborate diamond core drilling of the site was done under the direction of former Chief Engineer Bradford.

The dam was to have been built on the proceeds of the \$25,000,000 flood control bond issued in 1924, \$25,000,000 of which was allotted to this project. Many experts have been employed by the county to pass upon the San Gabriel dam in various aspects. STATE TROOPS' LEADERS ARRIVE

FUNERAL OF C. S. VANCE CONDUCTED

Carnahan Will Welcome National Guardsmen

Three-Day Convention Will Start Tomorrow

More Than 300 Expected to Attend Sessions

Plans were completed yesterday for the opening of the annual convention of the National Guard Association of the United States tomorrow at the Ambassador Hotel. Delegates representing the National Guard organizations of the various States continued to arrive yesterday and it is expected that all the 1,000 or more delegates will be present when the first session of a three-day convention opens in the Ambassador Hotel at 10 a.m. tomorrow.

Lieut.-Gov. Carnahan is scheduled to deliver the address of welcome to the representatives, the majority of whom are high ranking officer of their respective State military organizations.

NOTED SPEAKERS

Prominent among the speakers on the convention program will be Brig.-Gen. Robert J. Travis of Georgia; Brig.-Gen. Richard E. Mittelstaedt, Adjutant-General of California; Maj.-Gen. David P. Benson, W. High of Ohio; Maj.-Gen. Brant H. Wells, deputy Chief of Staff, United States Army; Maj.-Gen. William G. Everson, chief of the Militia Bureau, War Department, Washington; Col. Alexander J. McNab, United States Army, authority on the army rifle and Col. John G. Clark, Militia Bureau, Washington.

Thursday's sessions will be given over to organization work, the appointment of committees and the reading of the reports of the secretary and other officers.

OFFICERS LISTED

Officers of the national organization, representing a peace-time army of some 160,000 trained men are: Brig.-Gen. Elmer A. Walsh, Minnesota, president; Maj.-Gen. Milton J. Foreman, Illinois, honorary president; Maj.-Gen. Alfred F. Poor, Massachusetts, vice-president; Lieut.-Col. Fred M. Waterbury, New York, secretary, and Brig.-Gen. Milton R. McLean, Kansas, treasurer.

The corps area vice-presidents, nine in all, their jurisdiction corresponding with the corps areas of the United States Army are: Maj.-Gen. Charles W. Howard, New Hampshire; Brig.-Gen. Winfield S. Price, New Jersey; Col. D. John Markey, Maryland; Brig.-Gen. F. E. Butler, Alabama; Brig.-Gen. Frank D. Henderson, Ohio; Brig.-Gen. Paul B. Clemens, Wisconsin; Col. E. L. Comper, Arkansas; Col. William C. Clegg, Texas; and Brig.-Gen. Clemon A. White, Oregon.

The convention committee, which has had charge of all local arrangements for the convention is composed of Brig.-Gen. Walter P. Story, commander of the California National Guard, chairman, and Col. Harcourt Hervey, vice-chairman.

COURSE IN FIRST AID GIVEN BY RED CROSS

The Los Angeles Chapter, American Red Cross, last night began a free twelve weeks' course of instruction in first aid in Room 300, Patriotic Hall, 1816 South Figueroa street. The first section of the class, which will end November 18, is open to anyone interested in earning a Red Cross first-aid certificate. The second section, which will terminate January 14, 1930, will be open only to those who hold senior, advanced or instructors' cards in the first-aid service. The period of instruction is from 7 to 9 p.m.

DIRECTOR SUFFERING KLEIG EYE ATTACK

Suffering from a severe case of "Kleig eyes," Mel Brown, film director with the R.K.O. studios, was yesterday placed under the care of the oculist physician and a medical nurse. Both of Brown's eyes are covered with medicated bandages and dark lenses. However, the picture he has been making has not been retarded. Direction is continuing through his assistant, Tommy Atkins.

JOHN BARRYMORE RETURNS TO STUDIO

Following a four-day siege with intestinal influenza, John Barrymore returned to work yesterday at the Warner Brothers Studio. It was announced that still is weak from the attack but that he is able to take care of himself. Barrymore's illness did not hold up production on his second all-talking picture inasmuch as the director was able to shoot portions of the picture in which he does not appear.

AD CLUB HEARS SMITH

A. Carman Smith, president of Smith Advertising, president of the Advertising Club of the University of Southern California, last evening at their monthly gathering, a dinner meeting held at the Maison d'Or. The subject of the address was "How Far the Advertising Agency Should Go in Serving the Advertiser." Mr. Smith's remarks dealt with actual experience in serving advertisers. The purpose of the club's meetings is to qualify better its members to enter the field of advertising practice. Mr. Smith said that it was because of this fact that he devoted his message to the relation of actual experiences rather than the offering of theories. Mr. Smith was formerly president of the Advertising Club of Los Angeles and also of the Pacific Association of Advertising. Approximately fifty members of the University Advertising Club attended the dinner.

LASKY MAY SIGN NICK STUART

Ina Claire to Come Home Soon From Honeymoon Trip; McLaglen and Lowe Co-star in Parisian Story; Helen Morgan Signing With Paramount

BY GRACE KINGSLEY
Nick Stuart has been loaned by Fox to Paramount to play a nice role, we learned yesterday.

When Paramount was casting about to find a suitable lead to take the part of the brother in William Powell's first starring vehicle, not yet titled, that organization felt that it had a body under contract who quite filled the bill, the role being important and one which called for a dramatic type. Stuart answered all requirements. The role given to him in the career of this lad who has worked in turn as a studio office boy, a director's assistant, a director and featured player on the Fox lot. In the Powell picture he will be Babe Marsten, brother of the star and husband of Jean Arthur. This will be a dramatic role, far removed from his characteristics in the Fox comedies in which he has appeared.

We hear that it is quite possible that Stuart, at the end of his Fox contract, may sign with Paramount on a long-term contract.

Pathe Star Coming Home Next Week

Ina Claire, now in New York, is returning home next week accompanied by John Gilbert, her husband.

Miss Claire is at once to start work on her next Pathe picture, "Requiem for a Nun," directed by Ernest Vajda. The star, you know, according to her contract, has all the say about director, story, and, therefore will have her hands full even before she starts actually acting in the picture.

Gilbert and Miss Claire, as everybody knows, have been honeymooning in Europe during the past several months.

Helen Morgan With Paramount

That tremendously fascinating actress, Helen Morgan, is just about the busiest actress in the world. I should say, what with playing night in "Sweet Adeline," and making personal appearances and doing the other things required of a successful screen actress during the day in "The Show-Off." And "Avalanche," which is shortly to be shown at the Criterion Theater in New York.

However, Miss Morgan found time a day or two ago to dash up to the Paramount office in New York and sign a contract with them.

Her first picture will be from a story written by Ben Hecht and she will share honors with Charles Ruggles, Fred Kohler and Clayton Jackson and Durante. Robert Hemley will direct.

McLaglen and Lowe in Paris

Raoul Walsh didn't make up his mind to go to Europe for nothing.

We hear now that when Walsh reaches Paris he will take some shots of that center of art and culture with a view to using them in

the picture he is now working on.

FATHER SLAIN;
SON ARRESTED

Slab Wound in Heart Due to Family Quarrel

Paring Knife Used by Youth, Police Declare

Husband's Plan to Go Out Blamed for Tragedy

As the aftermath of a family quarrel in which the wife attempted to keep her husband from going out of the house, James C. Davidson, 963, Maitman avenue, is dead from a stab wound in his heart and his 20-year-old son is in jail charged with suspicion of murder.

The son, James, is asserted to have stabbed his father with a paring knife after they had struck several blows at each other. The young man told the police he struck at his father when the latter struck at Mrs. Davidson and in the fight which followed he sought to defend himself by picking up the knife.

According to Mrs. Davidson and her daughter, Emeline, 17, the young man's story substantially is correct. The father had come home unshaven, the family asserted, although they declared he had not been drinking. Poring over papers he asserted he was going out. An argument started and the fatal fight followed.

There was just one knife thrust but it struck Davidson's heart. A 20-year-old Leland Morris Harpster and Baker arrived at the house in answer to a telephone call from neighbors they found the wife, son

NAME SPELLED
LIKE BAD COLD

But Mr. Szczepanowski Gets Junk Dealer's License Despite Cognomen

Unable to pronounce the name of Stanis Szczepanowski of 2820 West Two Hundred and Fifty-eighth street, Harbor City, who sought a secondhand dealer's license, Inspector D. W. Longueau spelled it for the Police Commission yesterday in making his report on the applicant.

Longueau said there was nothing against the applicant except the task of pronouncing his cognomen and the commission granted the permit so as not to be compelled to digest the name by having it come up on another application.

LIFE OF WOMAN WHO
TOOK POISON SAVED

Suffering from poison she had swallowed yesterday, Mrs. Dorothy Gladden, 25 years of age, of 637 West Seventy-sixth street, was hurried to Georgia street Receiving Hospital, where she was put out of danger. Her husband, Howard Gladden, told the hospital staff that this was the second time his wife had taken poison following the completion of the project.

TRIAL HALTED BY WOMAN
TO CONFESS SHOPLIFTING

Suddenly halting her trial on a charge of burglary, Mrs. Hazel Spaney, 33 years of age, reputed wealthy shoplifter, yesterday pleaded guilty in Superior Judge Hardy's court.

Mrs. Spaney decided to change her plea and throw herself on the court's mercy after the State had presented a number of witnesses whose testimony was designed to

link her and Mrs. Bessie Gibson with the theft of several hundred dollars' worth of merchandise from a downtown store.

Judge Hardy will decide today whether the charge of former conviction against Mrs. Spaney will stand or be dismissed. In the meantime trial of Mrs. Gibson, who did not join in Mrs. Spaney's plea, will be resumed.

Mrs. Spaney is represented by Attorney Joseph Ryan.

STUDENTS TO VIE
FOR PRIZE TONIGHT

Eight students of the University of Southern California will compete tonight in the annual oratorical contest for the trophy donated by Judge William M. Bowen. The contest will be held in Board Auditorium, Thirty-fifth and University avenue, beginning at 8 o'clock.

The contestants, survivors of the preliminaries conducted on Monday, are Arthur Strock, Harris Robinson, Robert Moffitt, Hyrum White, Richard Tilden, Lockwood Miller, Robert Clegg and Charles Clegg Owen. Their subjects range from "The Hoover Farm Relief Plan" to "The Cotton Situation in the South." Alan Nichols, coach of the university debating team, will act as chairman and the low point total system will be used by the three judges in naming the winner.

COUNCIL DENIES PROTESTS

Protests against the improvement of One Hundredth street between Broadway and Figueroa street and the improvement of Avenue Forty-first from Frontolac avenue to Glenalbyn Drive were denied yesterday by Council, which ordered the completion of the projects.

(Continued from First Page)
passed by the Legislature on August 14, last.

ISSUE AT STAKE

While the argument being made by attorneys is supposed to be confined to the question of added protection to the constitutionalities of the act itself, and the rule of ownership of all natural resources in the State.

Attorney Bennett holds that the State has the right to regulate the conditions under which the oil may be produced, also the quantity that may be produced in order to prevent unreasonable waste. He contends the State has an interest in these commodities in the nature of a property right, as it has in all the natural resources of the State connected with lands.

PRIVATE PROPERTY

On the other hand, attorneys for the defense assert the State has no interest in the gas and oil which the oil companies own and controlled by private ownership. Further, that if the State wants to compel the oil companies to put back into the ground something which there is no market for, in order to preserve it for future use for the public, then the only recourse it has is to make a new law of eminent domain or through condemnation proceedings giving the companies a just compensation for that which is taken from them.

Practically the entire day was spent in a continuation of the arguments begun Monday on the two sides, one in defense, lessors as well as lessees as defendants in the suit and one for a continuance in order to permit attorneys for the oil companies to prepare their side of the case.

ASKS FOR TIME

"We were brought head and heels into this case to answer an uncertain order which would take a Philadelphia lawyer and a law library to interpret," Attorney Haas declared. Haas, with Attorneys McCann and Murphy, of the W. H. Derwin Company, Ambassador Petroleum Company, the Commodore Petroleum Company, Wilshire Oil Company, Inc., Wilshire Annex Oil Company and the Bantini Petroleum Company, a band of smaller companies that had presented the case to the Southern California court.

The sum total of their argument for a continuance and for lessors to be added as defendants in the action is that the interests of the operators and lessors are so intertwined that it is impossible to bring an action like the State has against one without bringing it against the other.

Attorney Haas took the position that the public at large has no proprietary interest in the gas and oil which the State would preserve with regulatory measures.

"OUR OWN WASTE"

"If we are wasting anything, we are wasting our own property, not State property," Haas declared.

Attorney Bennett, for the State, asserts the public has an interest in the natural resources of the State and the State has a right to preserve such resources.

The defense asserted the cases the State will bring to enforce the provisions of the new statute is indicated in affidavits from oil engineers on file.

One in particular, signed by W. N. Thayer, consulting engineer and geologist, virtually covers the ground for all. He asserts that a uniform gas-oil ratio is almost impossible, for every oil well is different.

HOLD-UP OF GARAGE
NETS CASH AND GAS

After holding up an attendant last night in the Mayfair Hotel Garage at 715 Stewart street, a well-dressed bandit took \$50 from the register and also a large sedan in which he drove off. Glenn Durnell, the attendant, was alone when a man about 30 years of age entered and covered him with a pistol. The car he stole belonged to H. W. McGuire of San Diego.

POLICE SQUAD RAIDS
SOFT DRINK STANDS

Hard cider at soft drink stands is the reason given last night by the central vice squad for raids on two places in Sawtelle. Reports reached them of a sudden boom in apple cider that was hard to explain, so the squad swooped down and gathered in the beverage for analysis. They arrested Percy Burgess at 969 Federal avenue, and Lee Menny and his employee, Arthur Brooks, at 11604 San Vicente Boulevard.

OIL COMPANY NAMED
IN \$255,000 ACTION

Suit was filed yesterday in United States District Court by J. Von Ernst against the Richfield Oil Company for \$255,000. It is charged in the complaint that Von Ernst was engaged by the oil company in 1926, for a period of five years, to represent the company in Germany and several other countries. The plaintiff asserts he was discharged in August, this year, at a financial loss to him.

GERMAN LECTURE SCHEDULED

The first of a series of seven lectures on German literature and foreign book department under direction of Prof. William Diamond, will be delivered in the Los Angeles Public Library at 8 p.m. tomorrow by Prof. Hoffmann of the University of California at Los Angeles. Prof. Hoffmann will discuss the late Hugo von Hofmannsthal, Austrian poet and dramatist, who attracted wide attention with his poem "Yesterday" and his short dramas, "The Death of Titian" and "Death and the Fool."

RABBIT PUNCHIES

PAUL LOWDY

A FORTY-YEAR SPAN

M R. JAMES WOODS was in his office at the Biltmore Hotel yesterday pulling up stakes—not from his job as boxing commissioner but as a hotel man.

After forty years in his chosen profession Mr. Woods is retiring from active participation, retaining interests, of course, but leaving the grind for the other fellow.

And what a flood of memories the years were bringing to this man who is known the length and breadth of the land for his connection with big business.

But his biggest job was in closing that office. He was fumbling his way through the task. He thumbed an old picture album—pictures of famous men in all walks of life. I thought I detected a tear in the kindly eye of the man who is known by thousands for his friendly demeanor.

"All friends of mine, all pals," he said quietly. "Many of them dead. Some of them alive. All he men."

And then he came across a photo which identified him many years ago with the sport which he now supervises in this territory.

An inscription across the photo read: "To my old pal Jimmy Woods." And it was signed by John L. Sullivan.

In the picture were four of the greatest heavyweights that ever lived—John L. Sullivan, James J. Jeffries, James J. Corbett and Joe Choynski.

This picture was taken at Reno when Jeffries fought Jack Johnson in 1910.

A LOCAL REFEREE

BACK on the job again after a trip north Mr. Woods is seriously considering the referee question for the impending middleweight championship battle between Mickey Walker and Ace Hudkins.

You can put it in your pipe and smoke it that no eastern referee will be imported for the occasion—not will a northern man get the assignment—thereby spiking a lot of rumors.

"A lot of indirect pressure is being brought to bear on me to have an eastern man or a Northern California man referee the Walker-Hudkins fight," Mr. Woods said.

"Why should we bring in an outsider for the biggest and most important fight ever held in California since the passage of the ten-round law?

"I haven't made up my mind who the man will be, but it will be one in whom the public has confidence and one who has worked in local rings and is considered a local referee.

"Beyond that, I have nothing further to say on the matter. I expect it to be a wonderful fight between two real fighters."

SECRET PRACTICE

THE bears are up at Bovard Field for everybody.

Always the bears go up before the Stanford struggle, but this year it is a week earlier than usual.

Convinced, this is prima facie evidence that Mr. Jones doesn't believe in score-dopey ones in particular.

It means that the Stanford game has Mr. Jones worried—and it is two weeks away.

BEARS OR PENN

WHOLL win at Philadelphia this coming Saturday—California or Pennsylvania?

The Bears have two victories to their credit, both gained on the Coast.

It may be different meeting Penn in its own back yard.

But then if the Bears take a leaf from the Oregon State and Stanford books of last year they will give Lou Young's boys their third straight wallop.

However, from this long-distance point of vantage it looks like an even-money bet. Particularly when you lack any definite information on Penn.

COACH KIPKE DISCOURAGED

Michigan Mentor Plans to Use New Men Unless Regulars Show Improvement Before Saturday

BY WILLIAM A. WEEKES Associated Press Sports Writer

CHICAGO, Oct. 15. (P.)—There will be a lot of improvement in Michigan football affairs before Saturday—or several players who started against Purdue last Saturday will have choice sideline seats from which to watch the Wolverines in action against its ancient foe, Ohio State.

Thoroughly discouraged with the performance of his team, which received one of the worst beatings from Purdue that a Michigan aggregation ever has suffered, Coach Harry Kipke has decided that all hands will play the best they know.

Michigan has a double-header this week with Ripon and Indiana Normal as the opposition, but Coach Slagg has his eye on October 26, when his Maroons meet Purdue. It was outspokenly pleased with the Maroons' action over Indiana, but spent most of time in getting down to work on improving his offense, with which he hopes to slip Purdue the same kind of a shock the Boller-makers handed Michigan.

Michigan came through the contest with no serious injuries and started planning for the Chicago game two weeks away. The Boller-makers will let off with light work yesterday but were to get back into harness today.

There were no changes in the Maroons' line-up, and Thistlewaite indicated the same eleven men would start against Notre Dame Saturday at Soldier Field, Chicago.

Illinois' first two teams scrimmaged against the third team and failed to impress Coach Zuppke with their ability to cope with few good players.

With the game over, the coach said: "I guess we would with that the boys went to Wrigley Field, checked in their bags, probably the Chicago Cubs and the like. The Wrigley Field is much the same place as Soldier Field, but the Maroons' record is not so good there.

Owner Wrigley and President William Veeck refused to discuss reports they were attempting to buy the team, but Wrigley is trying to put a soaring punch into the Hawks.

Ohio State's problem was the decision of a strong attack to shoot at Michigan. Al Hess, veter-

an back, who was injured two weeks ago, has reported but may not be ready for the engagement at Ann Arbor. Indiana has been put on a diet of fundamentals, following its loss to the Chicago Cougars.

Minnesota and Northwestern, which meet at Evanston in one of Saturday's outstanding games, faced a week of long, vigorous drills. The Gophers will be out to square accounts for an unexpected defeat

Calope and Trevino SIGN FOR RETURN GO

• Manuel Calope, Manila midget, and Paul Trevino, Mexican Terry McGovern, have been signed for a return date in the semi-final of the Southern California's eight game at the Main Street Athletic Club. Trevino took a close nod over the Filipino a few weeks ago.

Kay Curtis, young Nebraska middleweight, and Jack Charves, undefeated Mexican, are the main-

eventers Saturday night.

A CHUCKLE FOR EVERYBODY

BEASTS OF TARZAN

By Edgar Rice Burroughs

To her surprise, there appeared no sign of life aboard the ship. The current swung the dugout close to the Kincaid and with desperation born of despair she managed to clamber to the deck. She did not dare to look about her shoulders. Cautiously she explored the ship, but it was not long in discovering the cause of its apparently deserted condition. In the forecastle she found the sailor guard, deep in drunken slumber.

It was too late to turn back. She decided to throw

herself into the water and swim to the Kincaid's crew.

She did not know that many nights had passed for Jane

since she had last seen the Russian up the river.

She reached the open water un-

til she saw a ship at anchor near her.

It was the Kincaid.

It was too late to turn

back. She decided to throw

PAVING-PROCESS CONFLICT AIRED

Concrete-Curing Methods
Board Session Topic

Joint People Win Contract
on Three Projects

The conflict between two methods of curing concrete paving, the Hunt process and the National Seal-Kote, both contending for supremacy in public improvements, occupied the major part of the session of the Public Works Committee yesterday afternoon, with the probability looming that the matter eventually will be taken to court or decided.

The Hunt people have obtained approval by Council and Mayor of a license agreement, but have not been able to gain the consent of a majority of the Board of Public Works. In fact, the board recently ordered use of the Seal-Kote on a project, overruling the City Engineer's recommendation that it be tried out on a small patch, as an experiment.

The committee yesterday directed the preparation of plans for three improvements using the Hunt process. They are the Eighty-ninth street and McKinley avenue improvement district, the Seventy-first street and Victoria avenue improvement district, and the Franklin and Roosevelt avenue improvement district. In the event the board awards the contract the Seal-Kote people may test the case. As considered more likely, however, the board will refuse to award the contract and the Hunt people will then immediately commence thus getting the whole thing into court.

When Mearie Allen, City Prosecutor's investigator, resigned recently, he wrote the Mayor that a local politician was trying to get control of the Hunt process and exceed the price. The Hunt representatives at yesterday's session flatly denied that this man had anything to do with their project. There was considerable bickering between the two groups. Commissioner McGuire, who was one of those who permitted the Seal-Kote process to enter the field.

BROADWAY STORE HAS OPEN HOUSE

Remodeled Institution to
Have Housewarming Sale
to Celebrate Changes

Internal "open house" reigns at the Broadway Department Store this week, with thousands of visitors inspecting the newly garnished institution.

For several months intense activity in a manner marked the corner of Fourth Street and Broadway, where more than \$500,000 has been spent in remodeling and reconstructing the entire store to the point where its physical aspect has been entirely transformed on many floors.

The stupendous program, which has kept the floor of the department busy for months, night and day, is practically completed now and will be climaxed by a three days' housewarming sale tomorrow, Friday and Saturday.

Malcolm McNaughten, president of the Broadway Department Store, yesterday declared himself and associates highly gratified with the results achieved in creating a new Broadway.

"We have not only thoroughly modernized the store throughout, even to the windows and sidewalks, but have installed new methods and systems for service betterment that cannot but win the appreciation of discerning shoppers," he commented. "We have given two years' careful consideration to this phase of our modernizing program, as well as to the reconstruction end, with the result that the same friendly service that has made the Broadway, one of the most popular stores in the Southwest, will be found in even greater measure than ever before."

"We are, naturally, very proud of our beautiful street floor which has been entirely refinished in American walnut, or our mezzanine, which has been built around three sides of the building, giving new safety for employees, new rest rooms and windows, and all the other modernizing features we have consummated during the past few weeks, but most of all, we shall always strive to have this store stand first and foremost, for friendly service and unusual values."

The Broadway Department Store was founded on its present site in 1896, by the late Arthur Letts, who became a national figure in merchantile circles before his death in 1923.

NEWS OF THE CAFES

The opening of the fall season at the Cliff Dwellers' Cafes on Beverly Boulevard at Virgil street will be celebrated next Friday evening when C. Fox, proprietor, puts on his liveliest celebration ever held in his cafe. The occasion will commemorate the fourth anniversary of the cafe, whose chicken, steak and omelet dinners have been a hit.

For is personally supervising the affair and assures everyone an hilarious time. There will be impromptu entertainment and many surprise features.

MONTMARTRE'S GALA NIGHT

Approximately 100 screen players are expected to attend the gala celebration at the Montmartre this evening when Jimmy Kerr and his celebrated Rhythm Boys will make their Hollywood debut.

The evening will also mark the inauguration of "The Great Gatsby" night, with Betty Compson as guest of honor. By arrangement with the James Cruze studios and the Criterion Theater, where the picture

7 Reasons Why You Should Attend The BROADWAY'S Great Housewarming Sale

1 The price of every item advertised in the Housewarming Sale is the lowest at which it has been offered in recent years by The Broadway.

2 All items are NEW, wanted merchandise that are in demand right NOW.

3 Every department in the entire store will take part—including the new Men's Shop, the Juvenile Floor, the Apparel Sections and Homefurnishing floors.

4 Housewives will find hundreds of staple household needs included in the Housewarming Sale at unusually low prices.

5 All Fashion Merchandise is distinctly Style-Right regardless of the low price at which it is offered.

6 The Broadway has never in its 33 years of existence offered greater assortments, wider varieties, or greater values.

7 The atmosphere of The Newer Broadway together with the friendly service and unequalled values will make your visit altogether pleasant and profitable.

Marking a New Era of Progress! The Newer BROADWAY'S Great 3-Day HOUSEWARMING SALE

JUSTIFYING the unwavering faith of its founder, Arthur Letts, who staked his all in the little one-story store at the corner of Fourth and Broadway thirty-three years ago. The Newer Broadway stands today a living monument to the indomitable spirit of this pioneer merchant of the Pacific Coast—a spirit best expressed by his own motto, "Don't Worry, Watch Us Grow."

This same spirit has been back of all the preparations for The Broadway's Housewarming Sale, celebrating the completion of its Half-Million-Dollar Remodeling and Expansion Program—a program that evolved The Newer Broadway. Months of diligent planning, backed by world-wide contacts and tremendous resources, have resulted in the assembling of over Half a Million Dollars' worth of NEW and WANTED merchandise at prices that will make this Housewarming Sale

RUSSIAN BEAR OPENING

A Russian gypsy chorus of eight, a quartet, two orchestras, Sobol and Sobol, celebrated Russian dancers, and Helen Hindley, well known to radio fans, have been engaged by George Du Count to provide the entertainment at his new Russian cabaret which will have its gala opening tomorrow evening in the Christie Hotel, Hollywood. A dozen other entertainment novelties will be introduced.

Remodeling of the cabaret has been completed with decorations and settings in strictly Russian motif.

PIPE ORGAN ADDED

Starting this week Paul Perrot,

announces a daily bridge luncheon to be held at the Paul Perrot Cafe, opposite Westlake Park on Seventh street. With the exception of Wednesdays and Saturdays there will be no music to interfere with the bridge play.

The manager of the cafe will do a valuable and artistic prior to the guest holding high score in a party of twelve or more.

PIPE ORGAN ADDED

Arrival this week from New York of George Olsen's \$60,000 portable pipe organ at the Blossom Room of the Roosevelt Hotel in Hollywood has given that talented bandmaster another medium for musical expression in his nightly appearance at the so-called playground of the stars.

Each Monday night is studio night with players in attendance,

Friday evenings are given to college devotees of dancing, and on Sunday afternoons tea-dances are staged.

HUNGARIANS IN VOGUE

Hungarian music and entertainment have become the vogue in Hollywood since Director Berghoff introduced Josef Pekeleti and his Hungarian Orchestra in Thursday soirees and Sunday evening concerts at Haggerty's with a fashion show each day except Thursday.

PIRELL'S GUEST

The cinema luncheon Thursday noon at Mme. Helene's Tea Room on the mezzanine floor of J. J.

Margary's will have Sally Eilers as the guest of honor. Other prominent motion-picture players will be included in her party, it is reported.

Luncheons are every-day features at Mme. Helene's Tea Room in Haggerty's with a fashion show each day except Thursday.

Philharmonic Orchestra Has New Leader

The Philharmonic Orchestra of Los Angeles will enter the 1929-30 season with a new conductor, a new manager, a new assistant conductor and a new concertmaster, as well as a formidable list of soloists.

Arthur Rodzinski is celebrated

as a conductor of opera and symphony and comes here from a long association with Dr. Leopold Stokowski of the Philadelphia Orchestra. George Leslie Smith is a manager who has been associated with the orchestra since its inception. Henry Svedrofsky, assistant conductor, last season was concertmaster of the orchestra and is known as one of the best violinists in America. Josef Borissoff is internationally known as a concert violinist and has accepted the chair of concertmaster.

OFFERS RECEIVED

Although George Lewis still has three weeks to remain with Universal under his contract, the recent announcement that he intends to leave lance brought forth two definite offers from prominent producers.

Jed Kiley, formerly a Chicago newspaper man, who, in 1916, introduced American jazz music in dance halls of Paris, arrived in Los Angeles yesterday for a three month's visit.

Kiley assembled the first all-American negro dance orchestra in Hollywood and created a sensation with the new style of dancing music. His opened a half-dozen so-called American-style dance halls. His return to the United States is the first since 1916.

Speed-boat passenger service in being inaugurated on the River Foyle, Ireland.

Jazz Impresario Arrives in City

Board Refuses Pawnshop Place

All six applications for permits to operate pawnshops in Los Angeles were turned down recently by Police Commissioner Leland von Schaeffer, who said the board of commissioners in the city of Los Angeles had no authority to grant such permits.

The application, initiated by Anchor Loan Company, Inc., Hollywood Loan Company, Inc., and R. H. Morris and Sons, Koita.
